OBJETIVE

A position as Full Stack Developer or similar.

EXPERIENCE

NOVEMBER 2022 – PRESENT
APPLICATION DEVELOPER, EVIDEN

After completing my degree in Computer Science, I embarked on my career journey as an Application Developer, beginning with an internship. I started with a training program during which I successfully developed and deployed a weather application using Java and Angular. As time progressed, I transitioned to an engaging project assignment involving the utilization of Python and React. Throughout this experience, I have improved my programming skills, and gained valuable insights into real-world application development.

EDUCATION

SEPTEMBER 2019 – JULY 2022
GRADE: 14,00
BACHELOR'S DEGREE IN COMPUTER ENGINEERING, UNIVERSITY OF ALGARVE

Over the three years of this bachelor's degree, the ability to develop applications and services, program, manage networks, information systems, and databases, as well as program distributed applications on the internet, was acquired.
